! When using electrical equipment, basic safety precautions should always be followed, including the following:

- Read all instructions carefully before installing and save for future use.
- Make sure all connections are in accordance with the National Electrical Code and local regulations.
- To avoid possible electric shock, be sure the power supply is turned off before servicing or installing the fixture.
- Service should be performed by qualified personnel.
- These instructions may not cover all details or variations. If additional information is needed, please contact Visa Lighting.

1. Mount wall mounting plate to junction box with junction box screws (by others).
2. Install housing to lamp plate assembly by sliding the housing over the assembly. Secure with (4) #6-32 flat head screws.
3. Mount fixture to wall mounting plate by using the tabs on the mounting plate. Hook all (4) tabs onto the fixture. Use the hole on the lamp plate as a guide when mounting. Slide fixture down to lock in place.
4. Secure fixture with #8-32 self-tapping screw at the top-center.
5. Install acrylic lens (optional) by sliding it down the inside center of the housing.
