Type: _____ Project: _____ Location: _____

DIMENSIONS

OAH is the distance (in inches) from the bottom of the fixture to the ceiling plane.
Example - OAH(60) indicates an overall fixture height of 60"

W = Width L = Length OAH = Maximum Overall Height X = Body Height

W	3-1/4"	(83 mm)
L	47"	(1194 mm)
OAH	60"	(1524 mm)
X	1-1/2"	(38 mm)

FEATURES

- Use with PS24 Series of 24VDC Class II remote drivers. Each PS24 can power multiple fixtures and is available with 0-10V dimming. System costs are reduced by distributing the PS24 over multiple fixtures. Low-voltage class II wiring between the PS24 and connected fixtures simplifies installation. The PS24 is not included with the fixture; order separately - see Accessories section on page 2
- Suspension cables carry low voltage power; one positive, one negative
- Fixture includes suspension cables to allow maximum overall height of 60". Cables are field adjustable for over heights less than 60"
- Frosted acrylic diffuser
- Antimicrobial finishes (no VOC) on all interior and exterior painted surfaces
- ETL listed for damp locations. Not suited for exterior applications
